**Design:** UI/UX Design, Graphic Design, Mockups, Sketch, Photoshop, Illustrator, After Effects, Microsoft Office Suite

**Product:** Product Management, User Analytics, A/B Testing, Prototyping, Agile, Scrum, Presentations, Public Speaking

## WORK EXPERIENCE

**Software Engineering Intern at ServiceNow** | Summer 2019 & Summer 2020

**Santa Clara, CA**

- **Developed a virtual agent chatbot for the Finance team** using natural language understanding to manage finance documents with user friendly text message
- **Created an automated request management application** for employees who want to develop and host a speaker event by automating manual tasks like sending emails, surveys, and event invites to employees
- **Developed an internal feedback collection application** for the ServiceNow platform, allowing users to add customizable feedback widgets in portal pages and view metric data to make business decisions
- **Built a Slack application** to streamline the request management process and fetch ServiceNow records directly in Slack, thereby increasing employee productivity and improving communication

**Software Developer Intern at Netgear** | Summer 2017

**San Jose, CA**

- **Conducted development and testing** of a new mobile application on Android and iOS to enable users to wirelessly control Netgear routers and improve the user experience
- **Tested and created analytics reports** on newly developed Netgear routers to verify product functionality before public release

**iOS Developer Intern at Lumentum** | Summer 2016

**Milpitas, CA**

- **Designed and developed an iOS App** that helps the HR team manage the onboarding process for new employees with task/document management and realtime updates
- **Built a second iOS app** that enables employees across all Lumentum offices worldwide to contact their corresponding onsite security team in case of an emergency

## PROJECTS/COMPETITIONS

**Published Products and Projects**

- **Developed 4 iOS apps on the App Store** with **over 12,000 downloads**
- **Developed new open source libraries** for the community: animation frameworks, wireless communication libraries, etc.
- **Published a programming tutorial series** teaching how to develop iOS and JavaFX applications on YouTube

**Congressional App Challenge Winner** | Winter 2017

**Cupertino, CA**

- **Created an iOS app utilizing ARKit** (augmented reality) and object recognition to help people with Alzheimer's disease improve their memory and recollect precious events.

**Future Business Leaders of America National Competition**

**Anaheim, CA**

- **Digital Video Production:** 1st statewide and 3rd nationally | Summer 2017  
Created a new movie trailer using visual effects with After Effects and Premiere Pro
- **E-Business:** 1st statewide and 8th nationally | Summer 2015  
Designed and developed an E-Commerce site where people can buy and sell art online.

**Chicago, Illinois**

**Tinovation iOS/Web Tutor** | 2015 - 2018

**Cupertino, CA**

- **Head officer of iOS division;** developed and taught new curriculum and projects to teams of over 20 students
- **Led 2 hour classes** with technical demos and project lessons
